

What can Tri-Stone offer your next project?

HIGH QUALITY PRODUCT

PROMPT AND THOROUGH QUOTES

SHORT AND RELIABLE LEAD TIMES

VAST EXPERIENCE IN MASONRY
INSTALLATION AND DETAILING

Tri-Stone, Inc. is a Midwest manufacturer of architectural wet cast stone for all applications. Superior design flexibility and meticulously crafted details are among the benefits of choosing "wet cast" components, as well as a smooth finished surface, a very high compressive strength and shear resistance. Tri-Stone's unique wet cast stone formula can withstand sweltering climates as well as harsh Midwest weather. Not only can Tri-Stone produce a vast variety of cast stone products, but is experienced in restoring buildings to their original splendor by replicating aged pieces. With so many colors, finishes and designs to choose from in custom cast stone manufacturing, Tri-Stone is the top choice of discriminating architects, builders and informed individuals.

"If you can dream it, we can build it!"

Email us your drawings or photos.
We can build molds for practically
any shape.
